

We are **concerned** about underage substance use, here's what Roseau County teens are reporting:

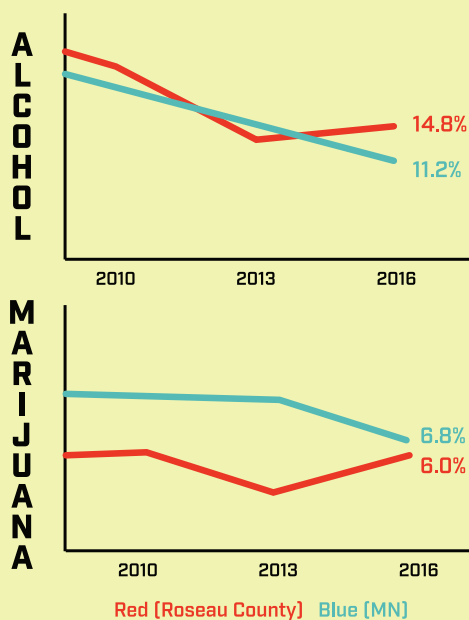

Roseau County, Minnesota

8.7% of 11th grade females reported using RX drugs in the past 30 days.

40% of Roseau County 9th graders think marijuana is **NOT** harmful.

9th graders reporting past 30 day alcohol & marijuana use is on the rise.

13% of students report using marijuana, **yet 71%** of students **THINK** most students have used marijuana.

► Students who believe most students **HAVE** tried marijuana are **10 TIMES MORE LIKELY** to have used marijuana in the past year.

12% of students report using alcohol monthly or more often, **yet 54%** of students **THINK MOST** students use alcohol monthly or more often.

► Students who believe **MOST** students drink alcohol monthly or more often are **5.6 TIMES MORE LIKELY** to drink monthly themselves.

We are **optimistic** that we can **reduce underage substance use** in Roseau County because:

Team EPIC was established in **2013**

Roseau County was awarded a **DFC GRANT** in 2015 (Drug Free Communities, \$600,000 over 5 years)

Team EPIC is **55 members** **STRONG AND GROWING!**

105 Community Members have been trained in the Search Institute's Developmental Assets

Data from the 2013 & 2016 Roseau County Minnesota Student Survey taken by Roseau County 8th, 9th, & 11th graders.

4 Roseau County School Districts have partnered with Team EPIC to provide weekly substance prevention programming & activities in their schools!
