

DATA COME HOME

Using Local Data to Mobilize Support for Prevention Efforts

Region 2: Northeast

Consequences

Alcohol

	NORTHEAST REGION	MINNESOTA
2015 ARMV incident costs per capita	\$92	\$50
% of crashes that were alcohol-related in 2015	5.9%	4.9%
2015 ARMV fatalities	4 per 100,000	3 per 100,000
2015 DWI by location of residence	51.3 per 10,000	44.7 per 10,000

Tobacco

- The 2015 rate of lung, bronchus, and trachea cancer deaths for the Northeast Region was 74 per 100,000 population, while the state rate of was 45
- It is estimated that 90% of lung cancer deaths among males and 79% among females are smoking-related
- According to the Surgeon General's report, smoking harms nearly every organ in the body, causing many diseases (including coronary heart disease—the leading cause of death in the US)

Minnesota Student Survey

2016 MSS

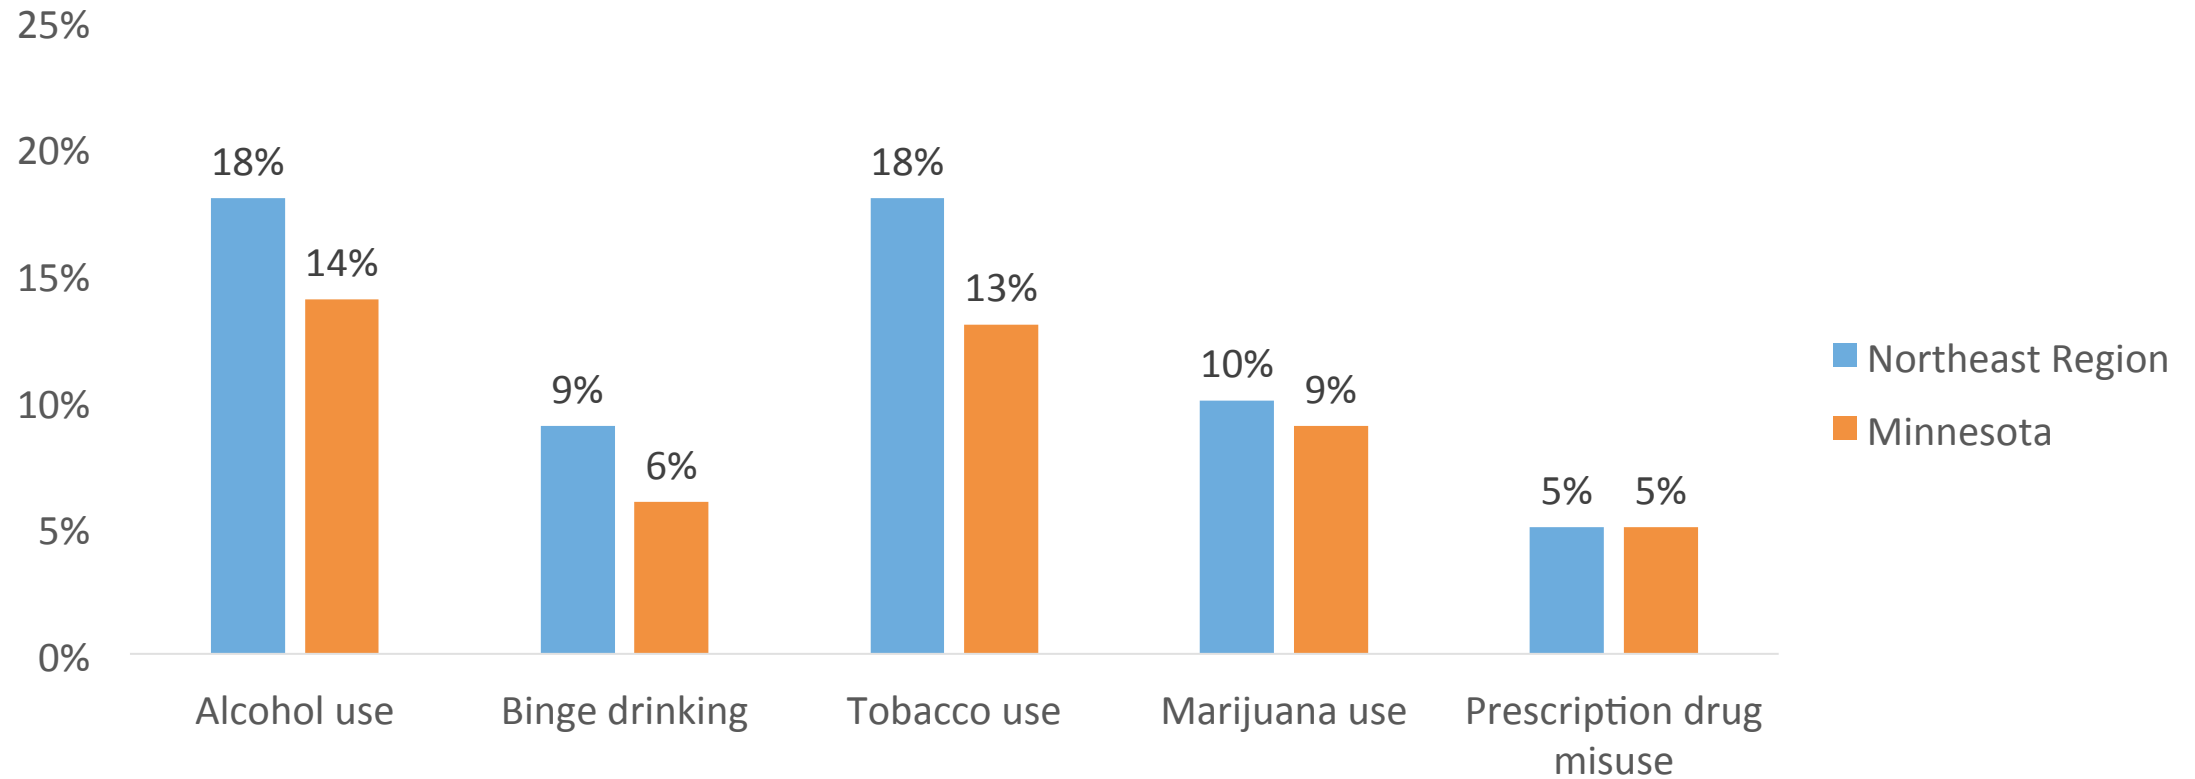

- Administered in the first half of 2016 to public school students in grades 5, 8, 9, and 11
- 85.5% of public operating school districts participated
- Overall participation across the four grades was approximately 66% of total enrollment
- **Northeast Region students make up 5.0% of the overall statewide sample**

Substance Use

Overview

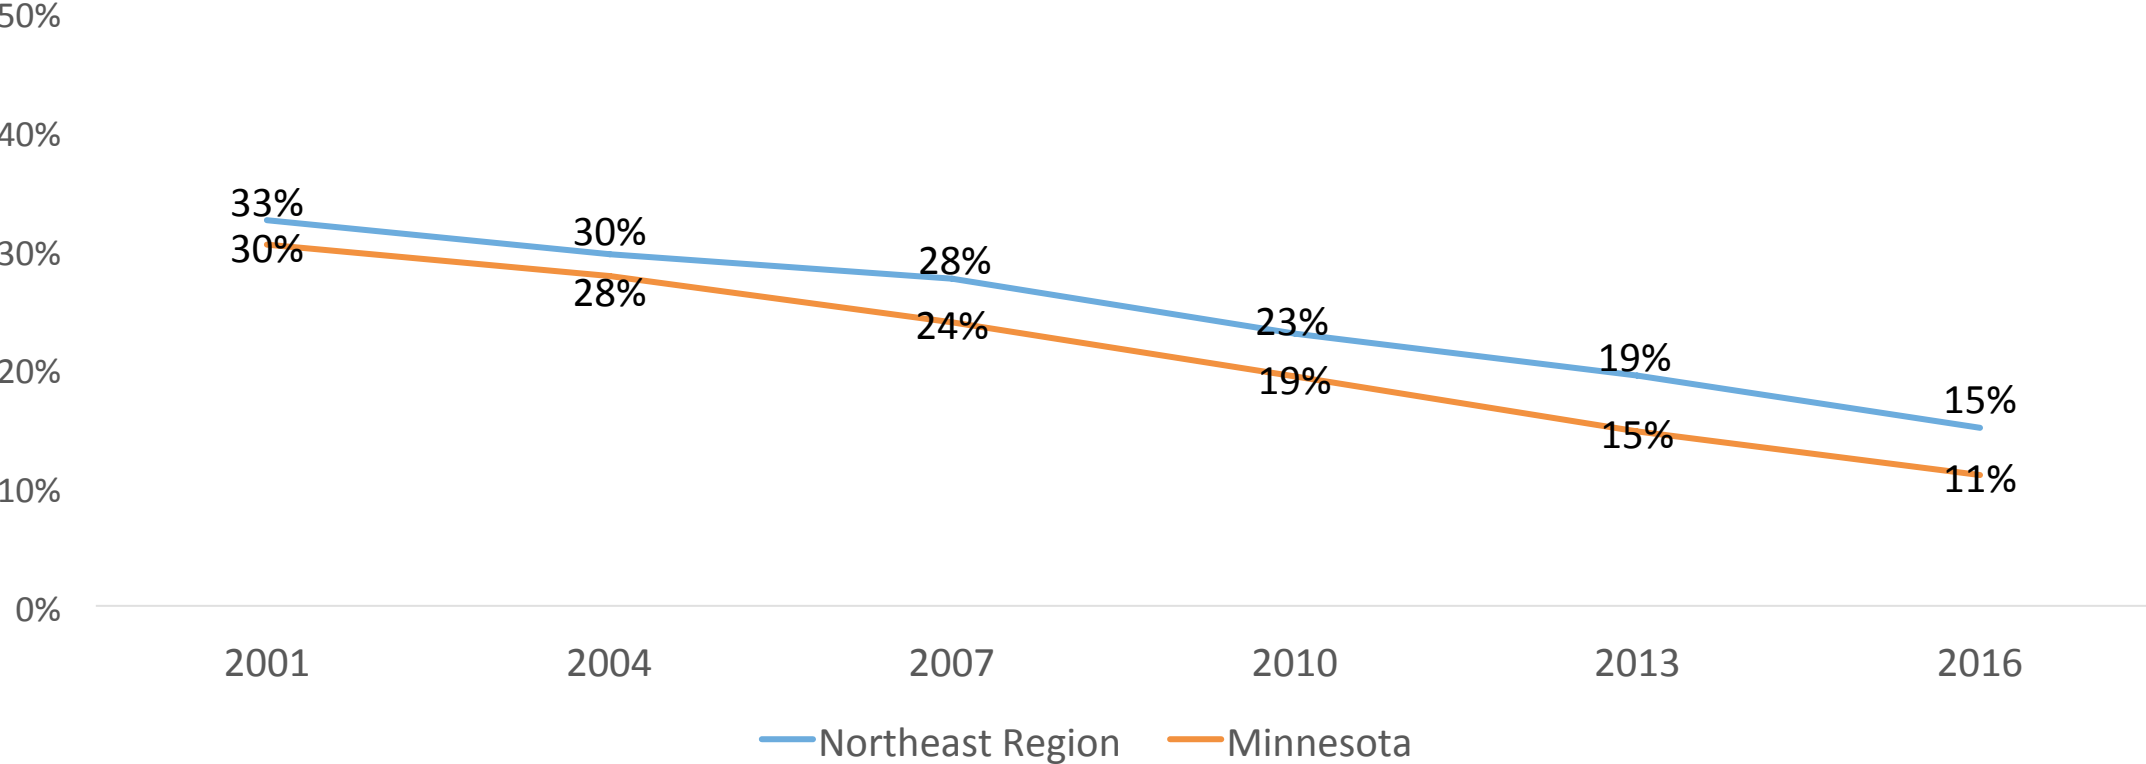

8th, 9th, + 11th Graders Reporting Past-Month Substance Use, 2016 MSS

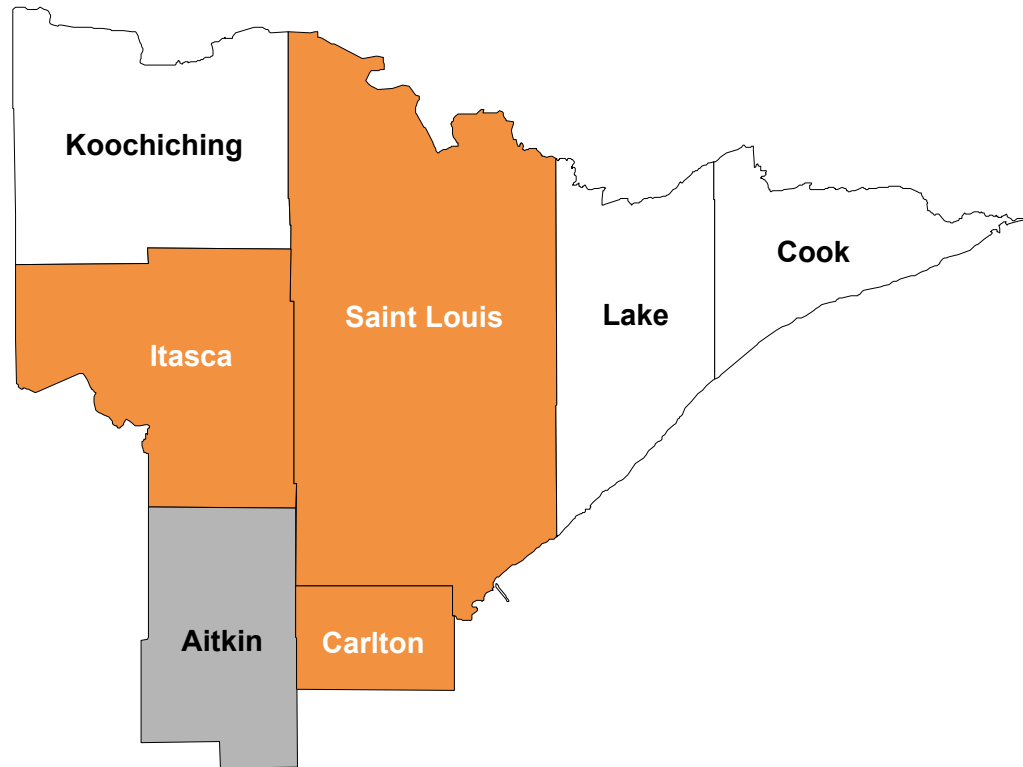

Past-Month Alcohol Use

23% of 9th graders nationally reported past-month use (2015 YRBS)

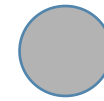

9th Graders Reporting Any Past-Month Alcohol Use, by Year, MSS

Past-Month Alcohol Use

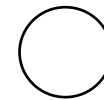

Higher than MN

Similar to MN

Lower than MN

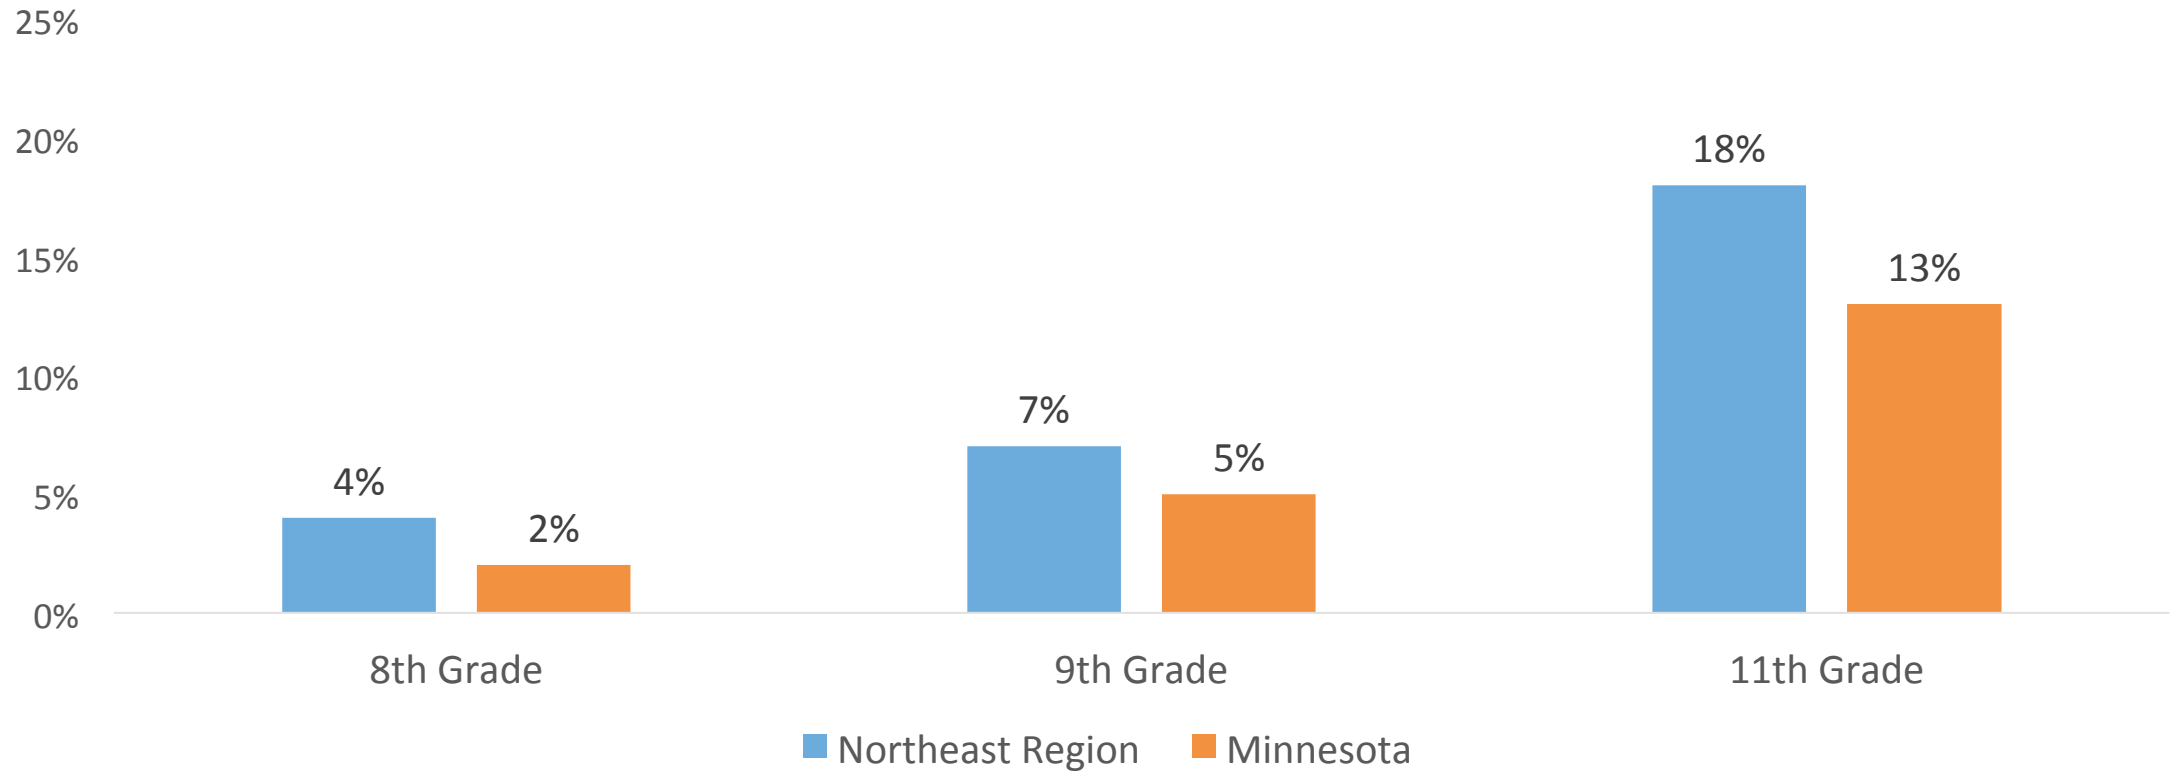

No data

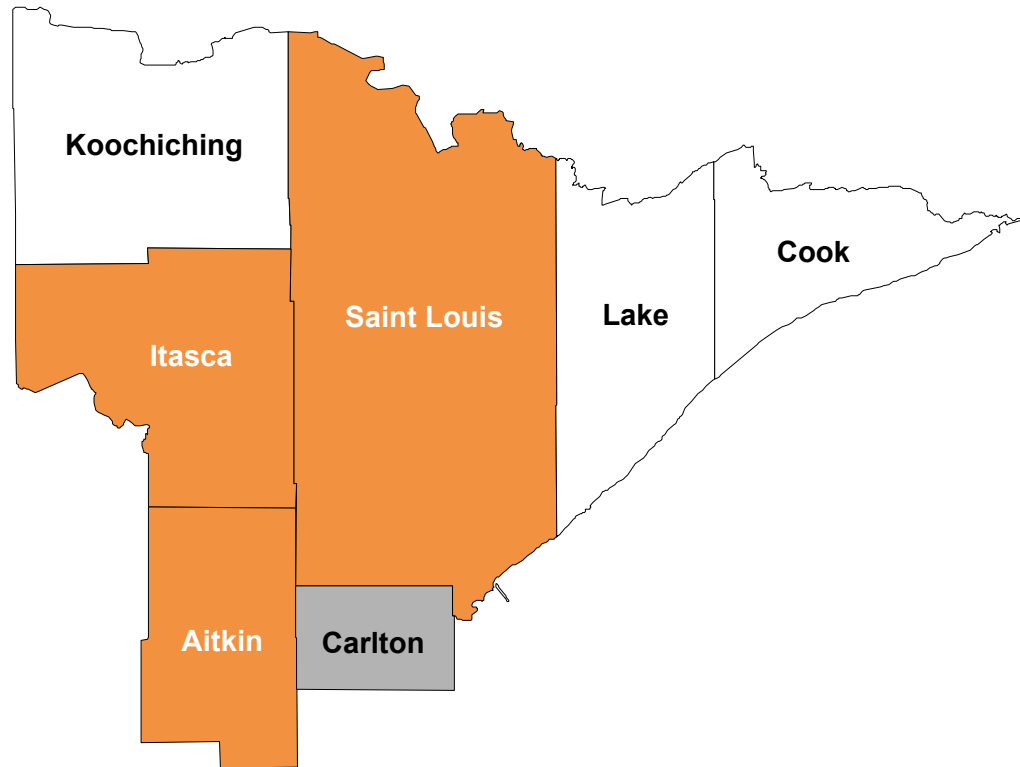

Past-Month Binge Drinking

Nationally, 10% of 9th graders + 22% of 11th graders reported past-month binge drinking (2015 YRBS)

Students Reporting Past-Month Binge Drinking, 2016 MSS

Past-Month Binge Drinking

Higher than MN

Similar to MN

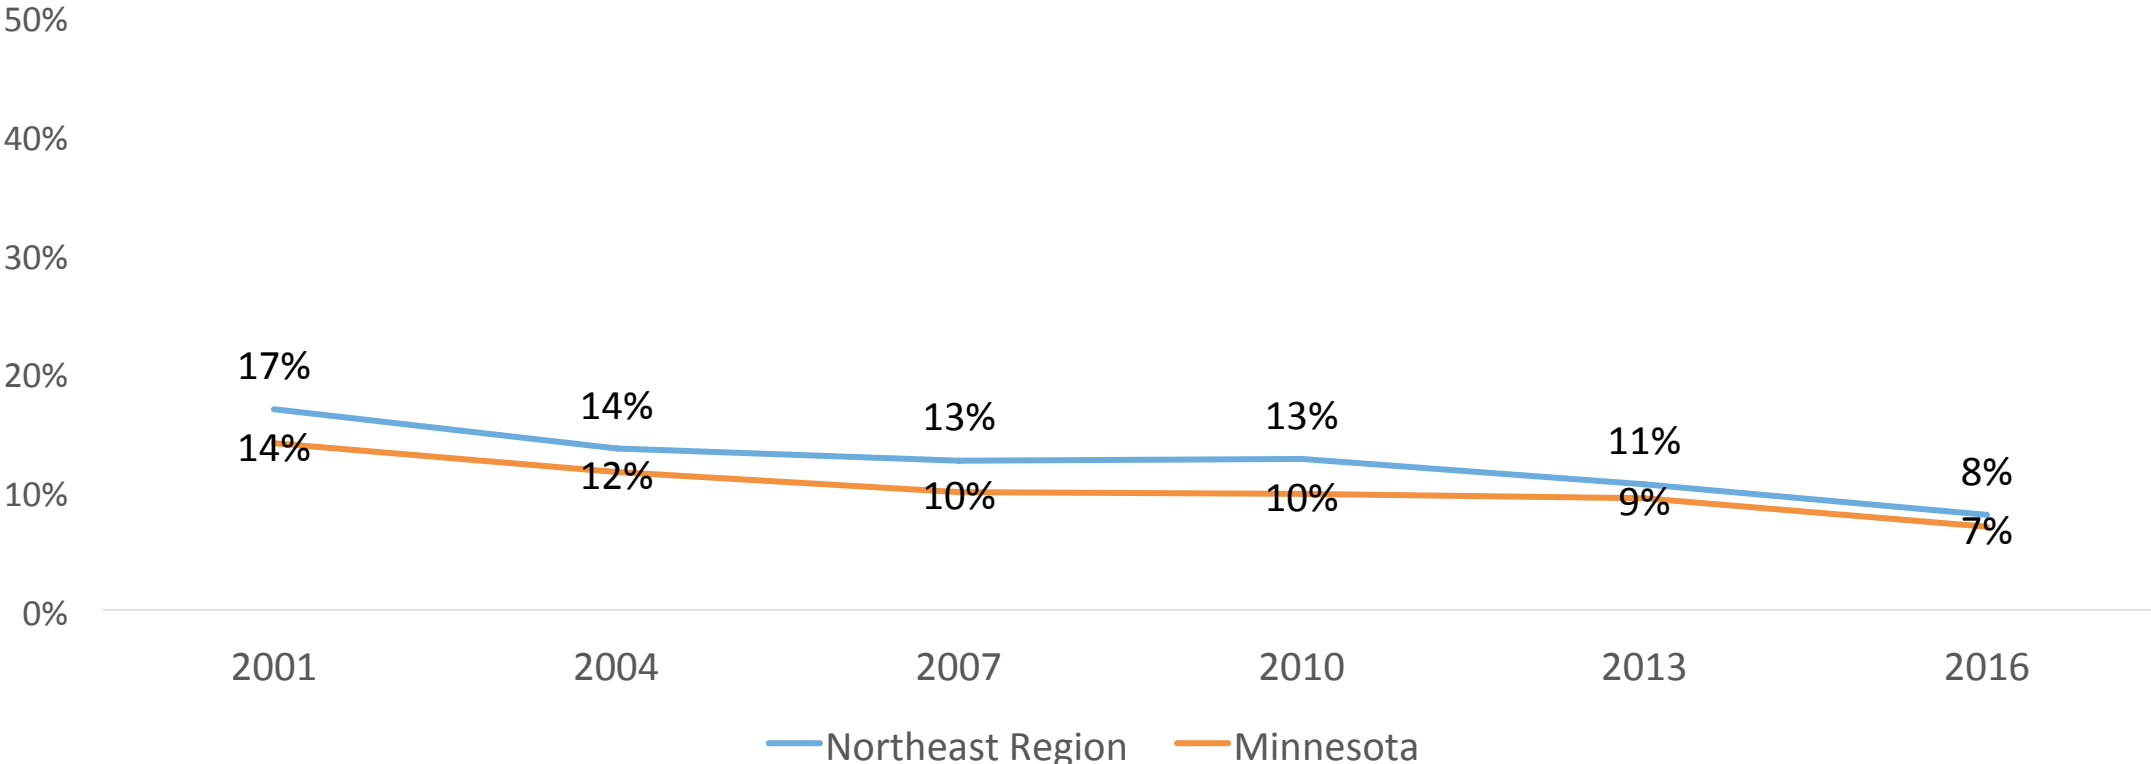

Lower than MN

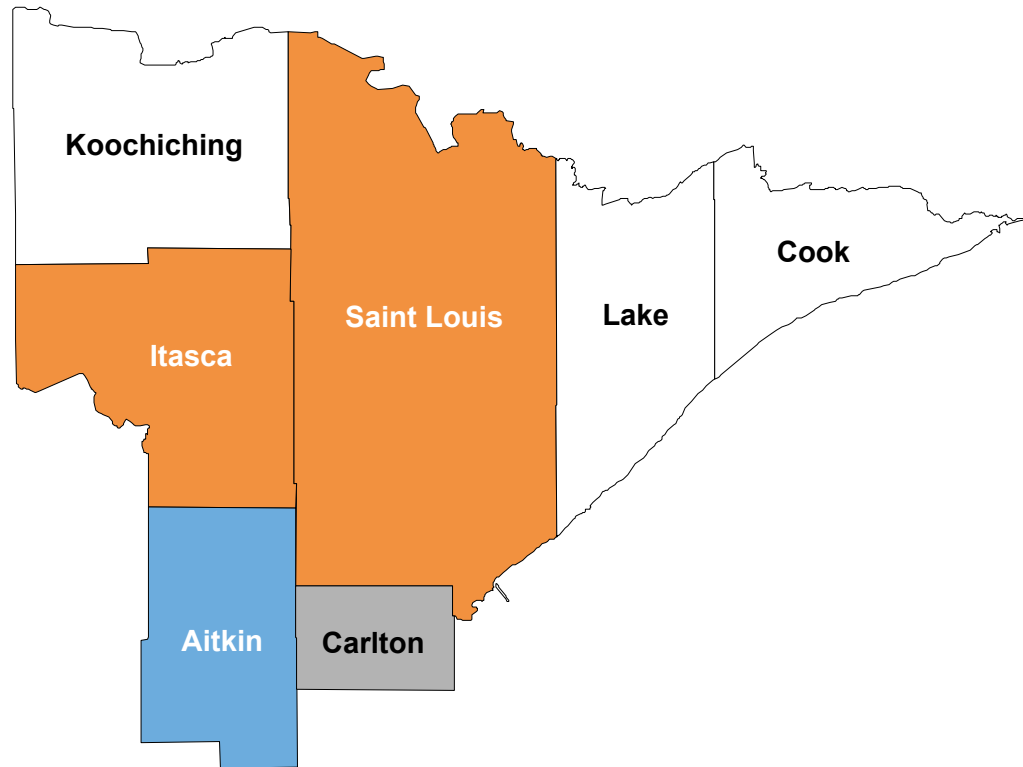

Past-Month Marijuana Use

15% of 9th graders nationally reported past-month use (2015 YRBS)

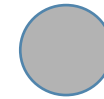

9th Graders Reporting Any Past-Month Marijuana Use, by Year, MSS

Past-Month Marijuana Use

Higher than MN

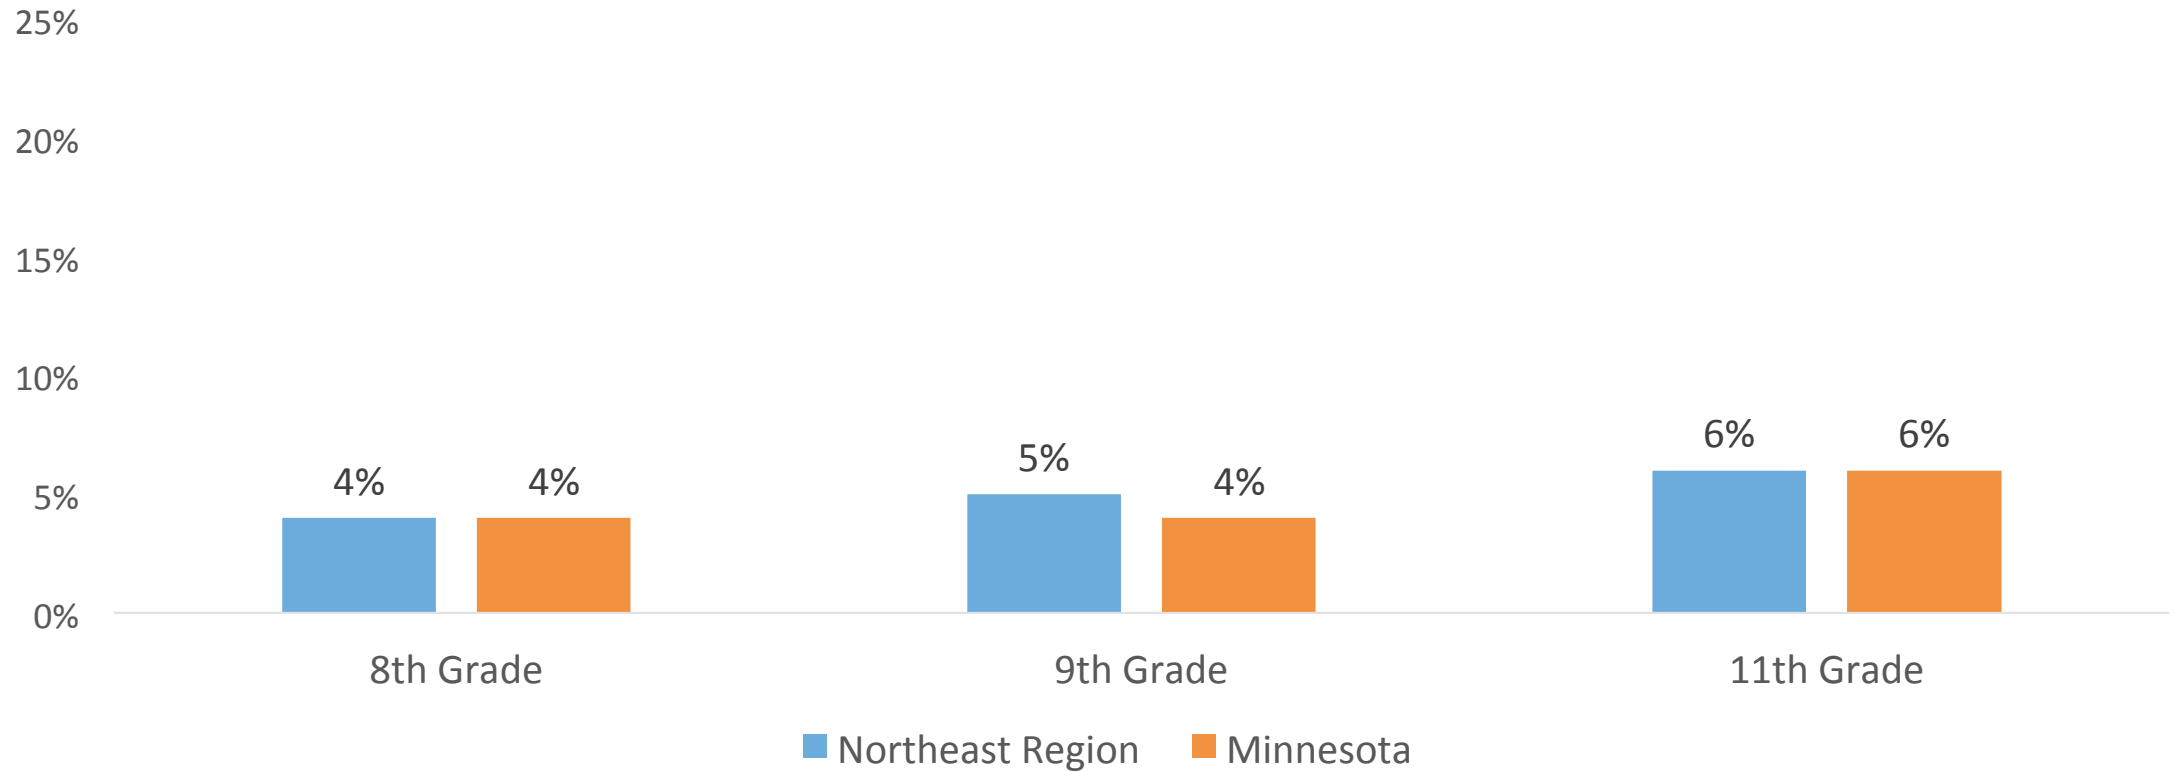

Similar to MN

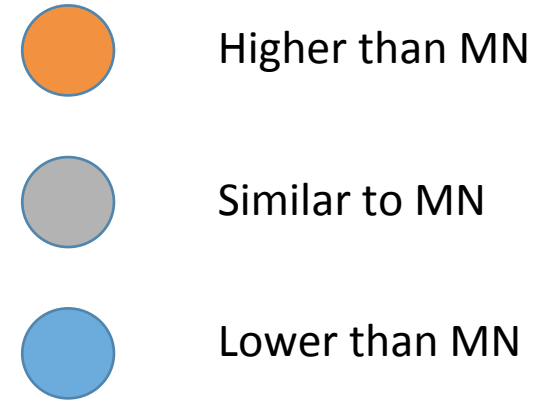

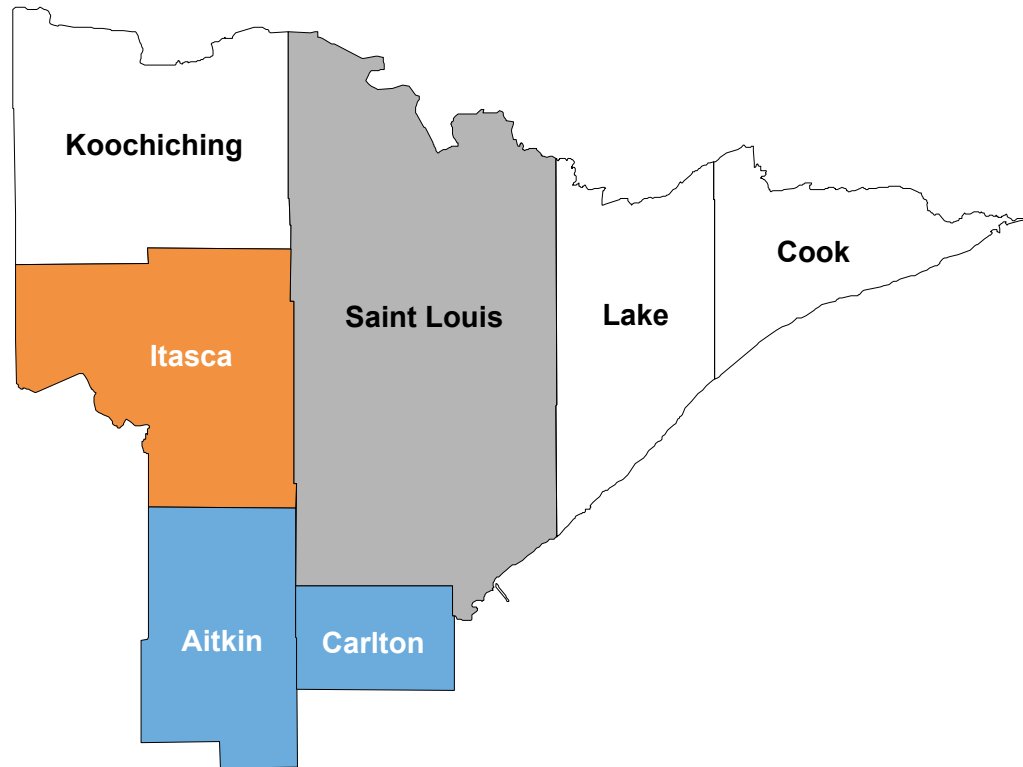

Lower than MN

Past-Month Prescription Drug Misuse

Students Reporting Past-Month Prescription Drug Misuse, 2016 MSS

Past-Month Prescription Drug Misuse

Risk + Protective Factors

Definitions

Risk Factors

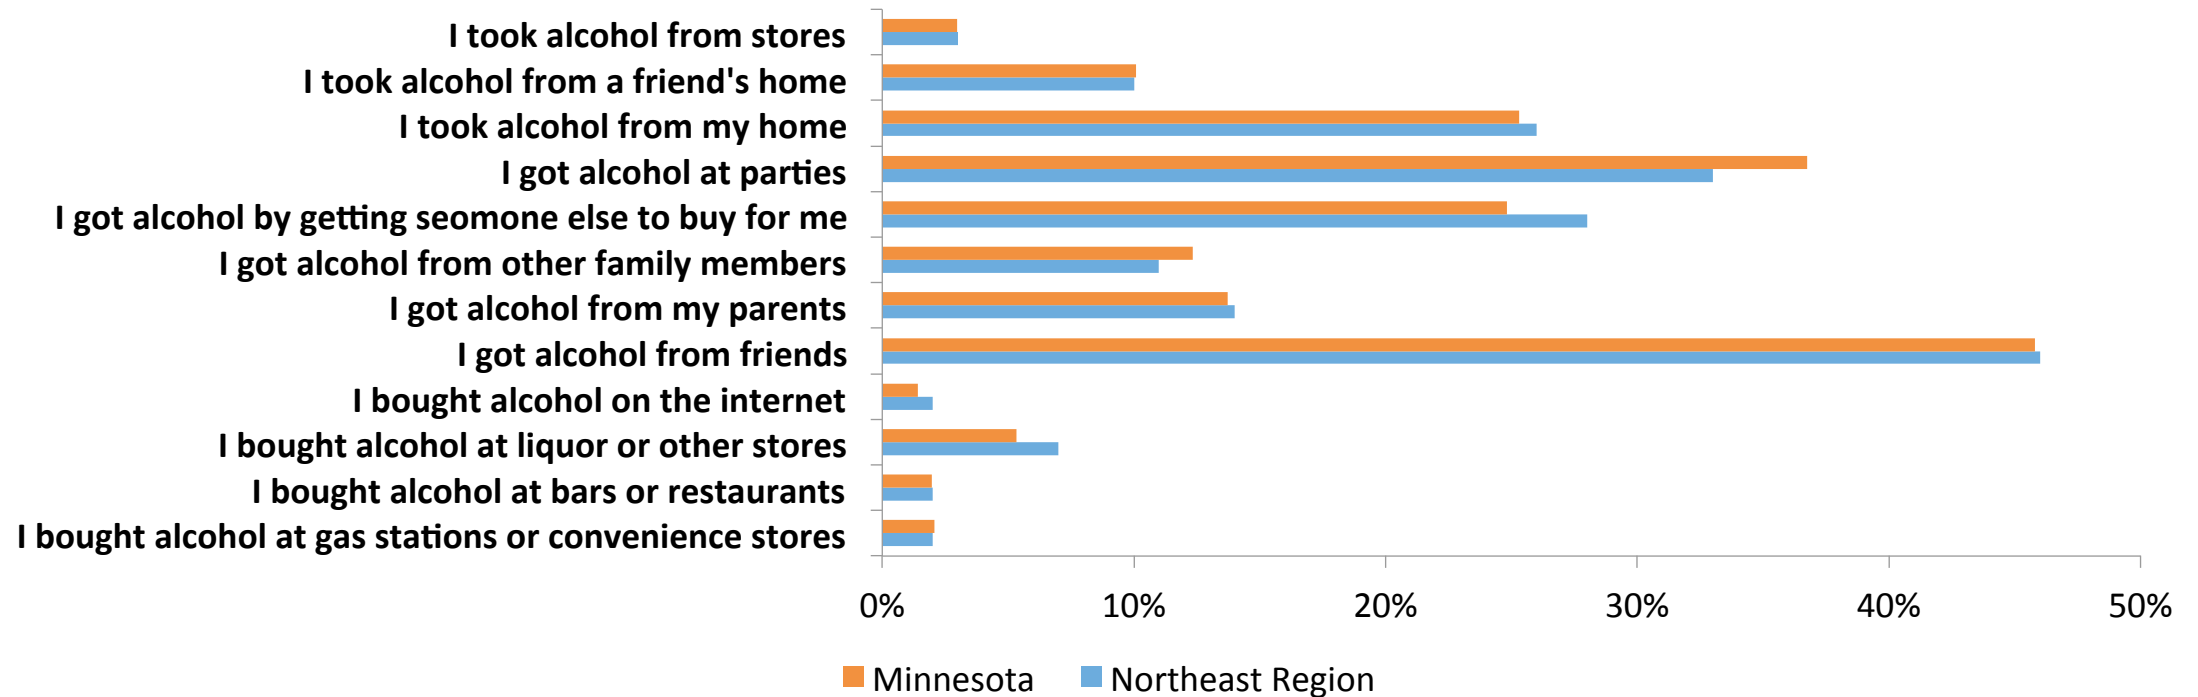

Individual characteristics and environmental influences associated with an **increased vulnerability** to the initiation, continuation, or escalation of substance use

Protective Factors

Individual resilience and other circumstances that are associated with a **reduction in the likelihood** of substance use

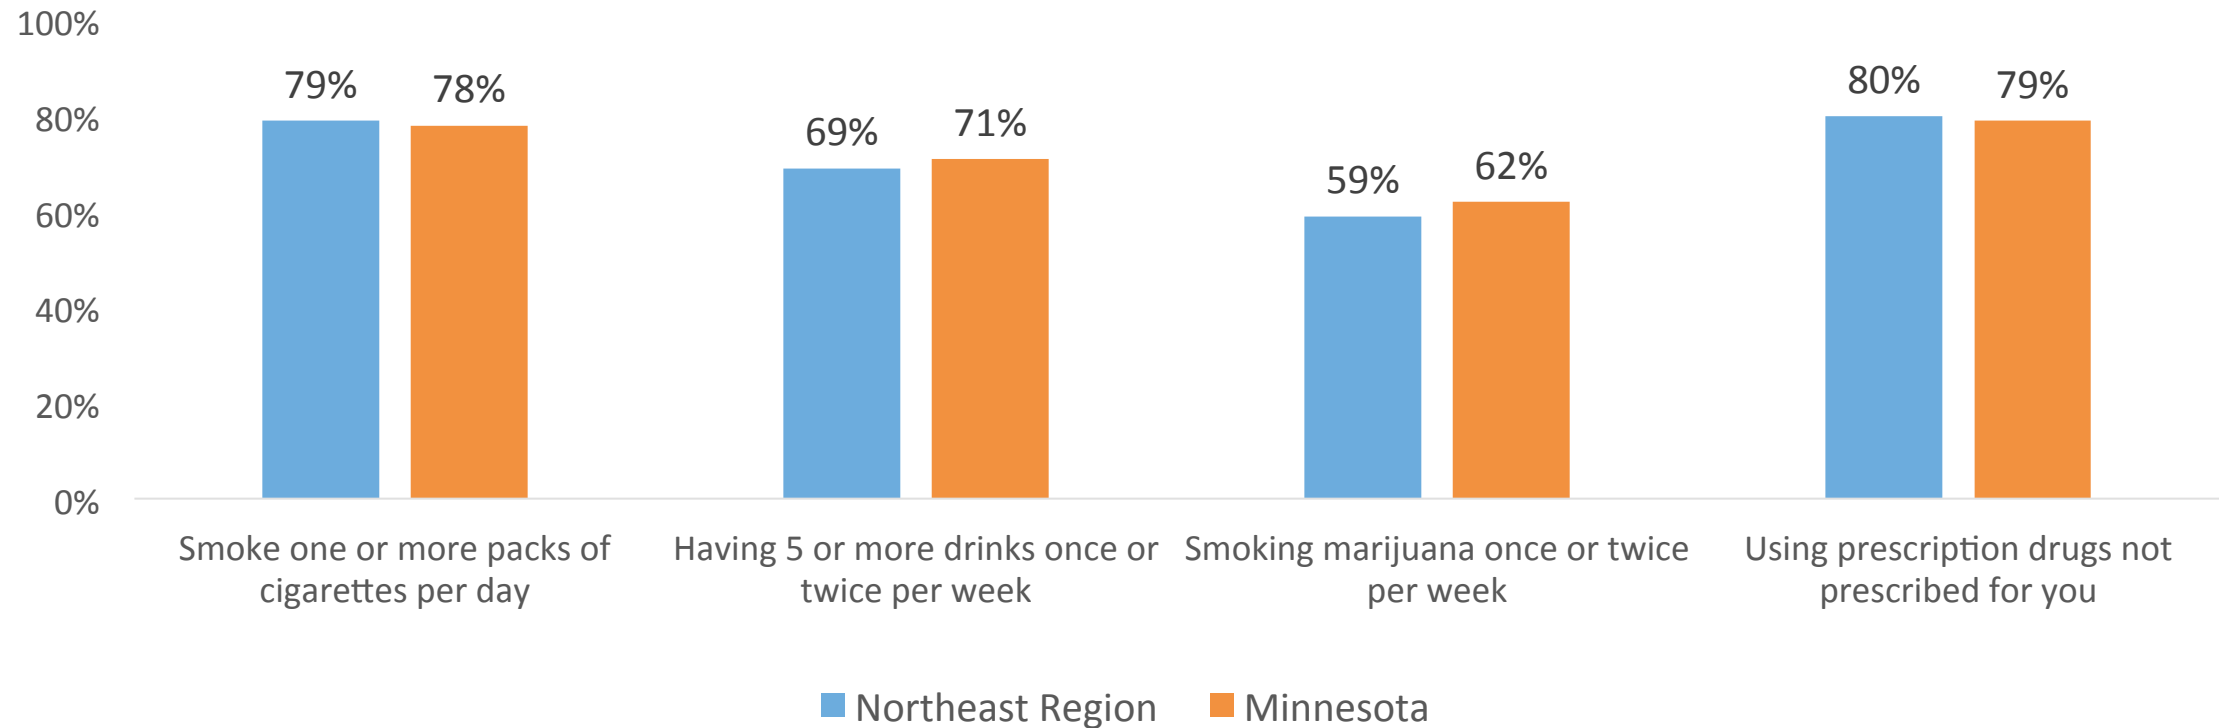

Alcohol Access (Question not included on 2016 survey)

Alcohol Sources for 8th, 9th, + 11th Graders Reporting Any Past-Month Use, 2013 MSS

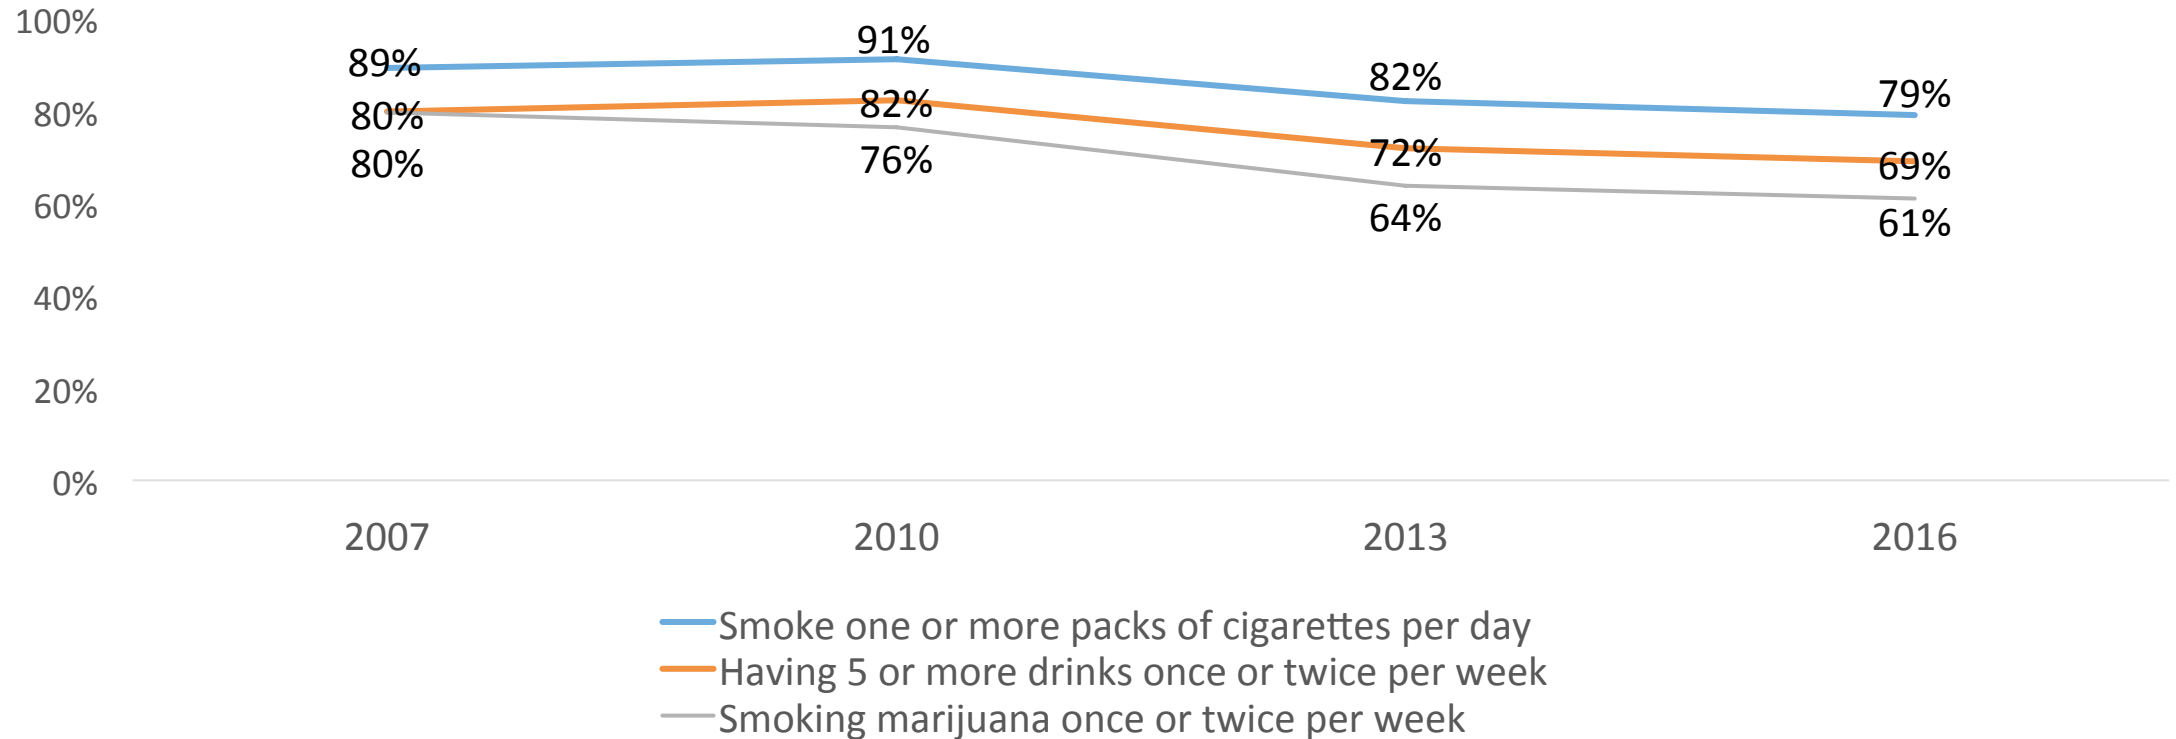

Perceived Risk of Harm

5th, 8th, 9th, + 11th Graders' Perceived Risk of Great or Moderate Harm from Substance Use, 2016 MSS

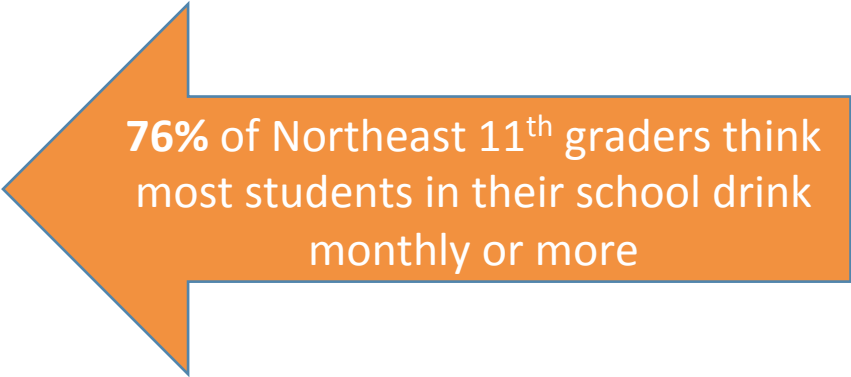

Perceived Risk of Harm

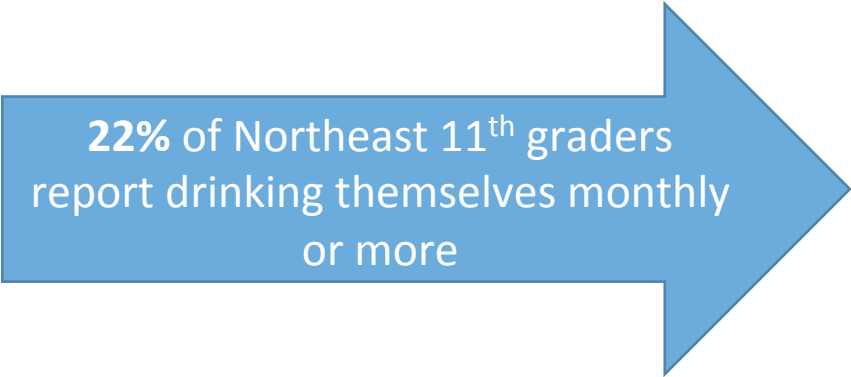

Northeast Region 9th Graders' Perceived Great or Moderate Risk of Harm from Substance Use, by Year

Perceived vs Actual Use

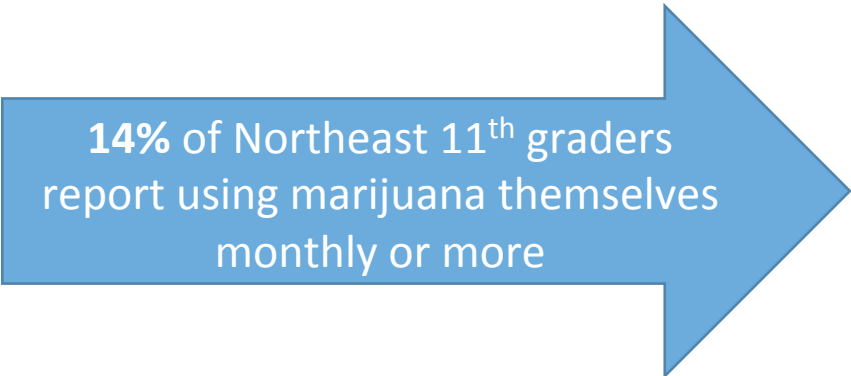

76% of Northeast 11th graders think most students in their school drink monthly or more

22% of Northeast 11th graders report drinking themselves monthly or more

72% of Northeast 11th graders think most students in their school use marijuana monthly or more

14% of Northeast 11th graders report using marijuana themselves monthly or more

Risk Ratios

- Compare level of risk between two different student groups
- Show association, *not* causation
- Can vary from community to community
- Example:

$$\frac{\text{Students getting mostly A grades}}{\text{Students who didn't drink in the past month}} : \frac{\text{Students getting mostly A grades}}{\text{Students who DID drink in the past month}}$$

Comparison Groups

Be mindful of
the comparison
groups!

Northeast youth who think MOST students drink monthly or more often are **4.9x** more likely to report they drink monthly or more

vs

Northeast youth who drink monthly or more often are **1.7x** more likely to say they think MOST students drink monthly or more often

Northeast youth who reported being bullied in the past month are **2.6x** more likely to report past 30-day prescription drug misuse

vs

Northeast youth who reported past 30-day prescription drug misuse are **1.5x** more likely to report having been bullied in the past month

Alcohol Use

Students reporting NO past-month alcohol use were...

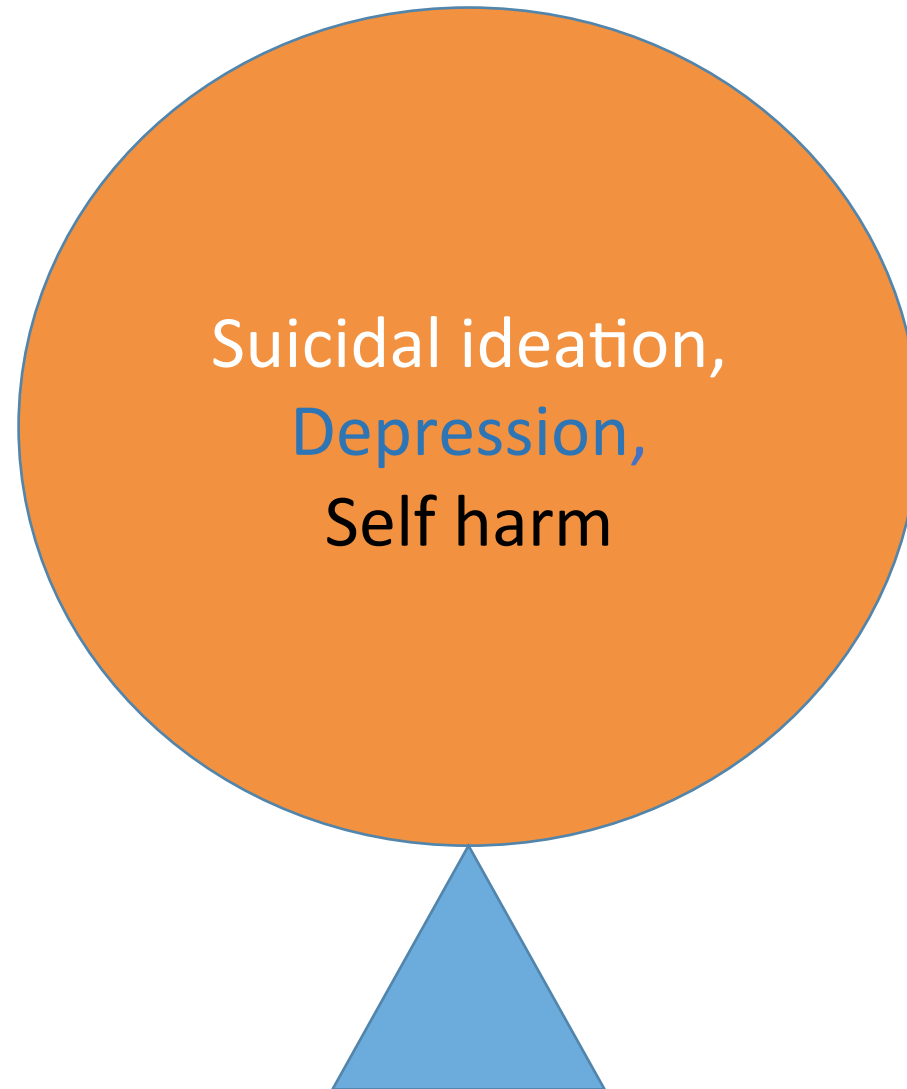

NORTHEAST REGION	MINNESOTA	<i>Less</i> likely to report past-month use of...
Over 6x	Almost 9x	Tobacco
Almost 11x	Almost 12x	Marijuana
Almost 7x	Almost 8x	Prescription drugs not prescribed for them

Tobacco Use

Students reporting NO past-month tobacco use were...

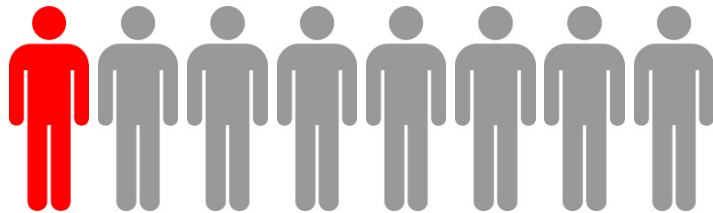

NORTHEAST REGION	MINNESOTA	<i>Less</i> likely to report past-month use of...
Almost 6x	8x	Alcohol
Over 11x	Over 16x	Marijuana
Over 6x	Almost 8x	Prescription drugs not prescribed for them

Mental Health

Suicidal Ideation

Nearly 1 of 8 Northeast (13.8) + Minnesota (118%) 8th, 9th, + 11th graders reported past-year suicidal ideation

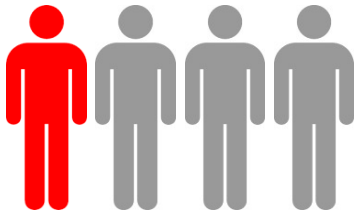

Northeast students reporting past-year suicidal ideation were:

- **2.3x** more likely to report alcohol use
- **2.5x** more likely to report tobacco use
- **3.1x** more likely to report marijuana use
- **3.6x** more likely to report Rx drug misuse

Depression

About 1 out of 4 Northeast (24%) + Minnesota (22%) 8th, 9th, + 11th graders reported past-year significant problems with feeling very depressed

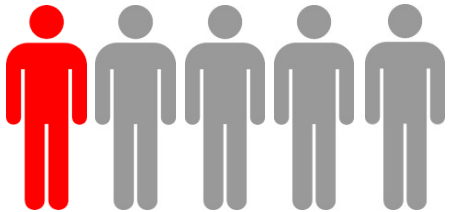

Northeast students reporting past-year significant problems with feeling very depressed were:

- **1.8x** more likely to report alcohol use
- **2.0x** more likely to report tobacco use
- **2.6x** more likely to report marijuana use
- **3.6x** more likely to report Rx drug misuse

Self-Harm

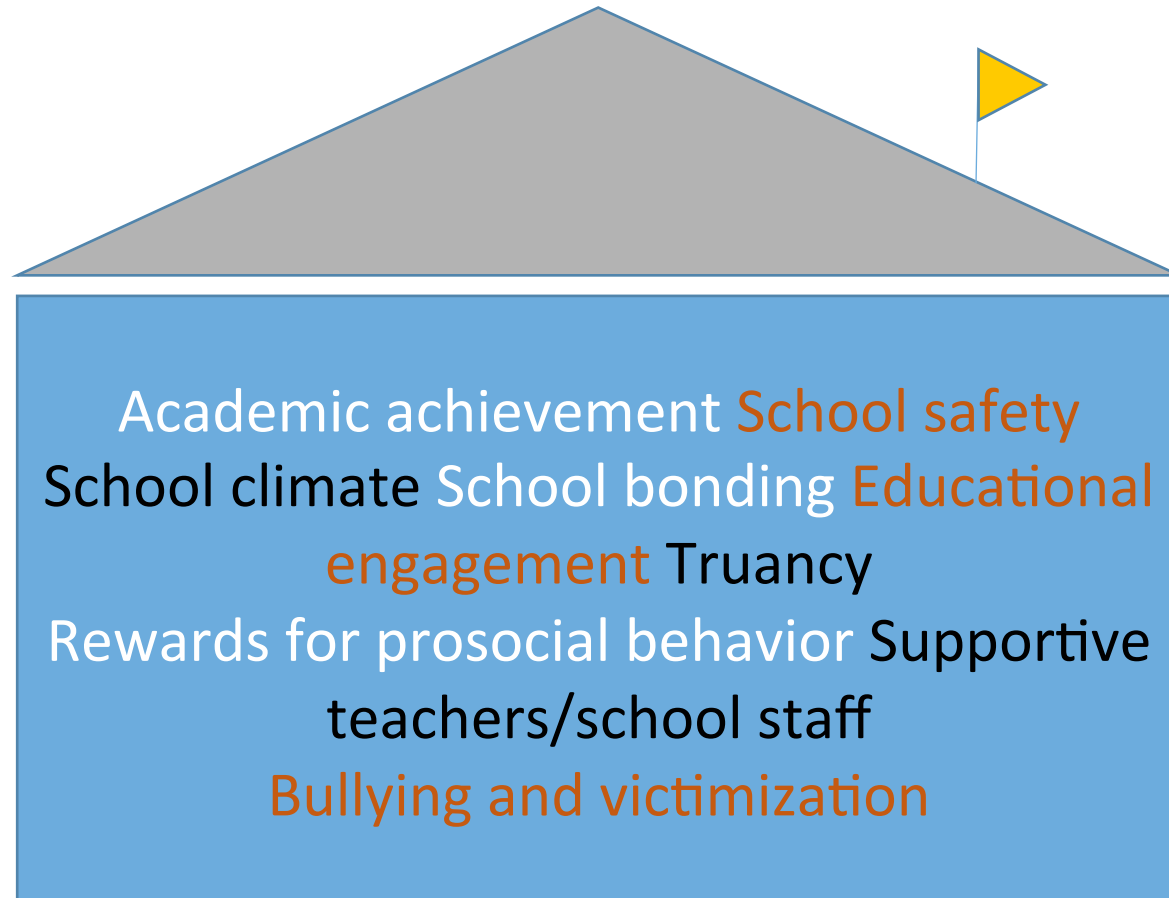

Nearly 1 out of 5 (18%) Northeast + Minnesota (16%) 8th, 9th, + 11th graders reported past-year self-harm

Northeast students reporting past-year self-harm were:

- **2.3x** more likely to report alcohol use
- **2.4x** more likely to report tobacco use
- **3.0x** more likely to report marijuana use
- **5.2x** more likely to report Rx drug misuse

School

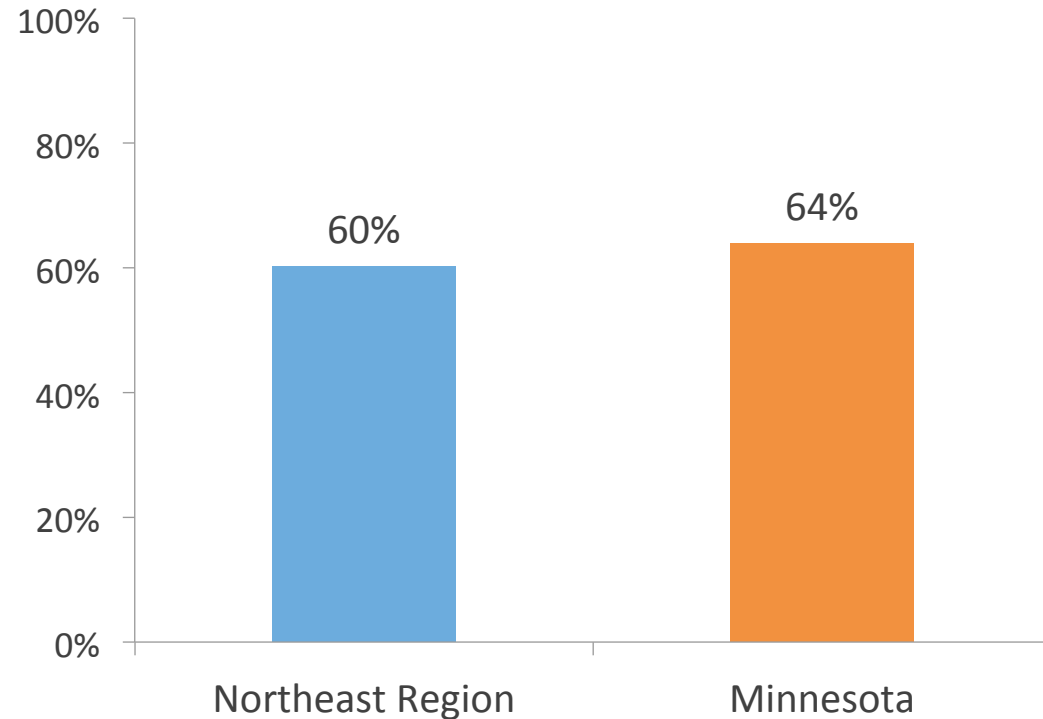

Teacher-Student Relationships

- Overall, adults at my school treat students fairly
- Adults at my school listen to the students
- The school rules are fair
- At my school, teachers care about students
- Most teachers at my school are interested in me as a person

Teacher-Student Relationships

Students Reporting Stronger Teacher-Student Relationships

Northeast students reporting better teacher-student relationships were:

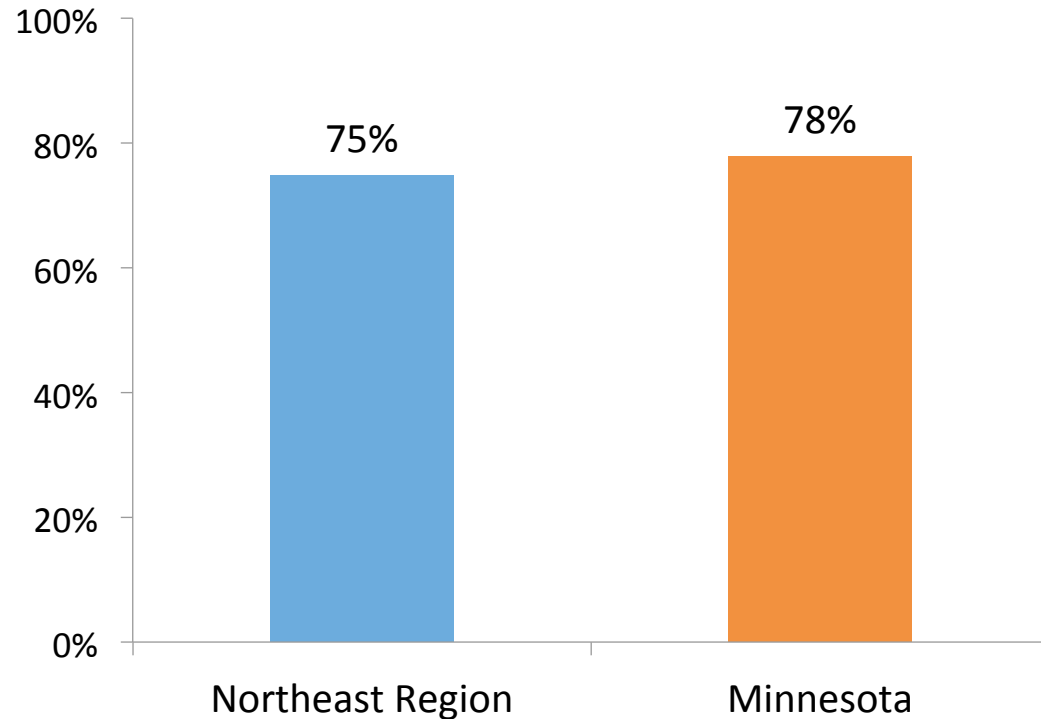

- **2.3x** less likely to report alcohol use
- **2.6x** less likely to report tobacco use
- **3.1x** less likely to report marijuana use
- **2.7x** less likely to report Rx drug misuse

Educational Engagement

- How often do you care about doing well in school?
- How often do you pay attention in class?
- How often do you go to class unprepared?
- If something interests me, I try to learn more about it.
- I think the things I learn at school are useful.
- Being a student is one of the most important parts of who I am.

Educational Engagement

Students Reporting Greater Educational Engagement

Northeast students reporting greater educational engagement were:

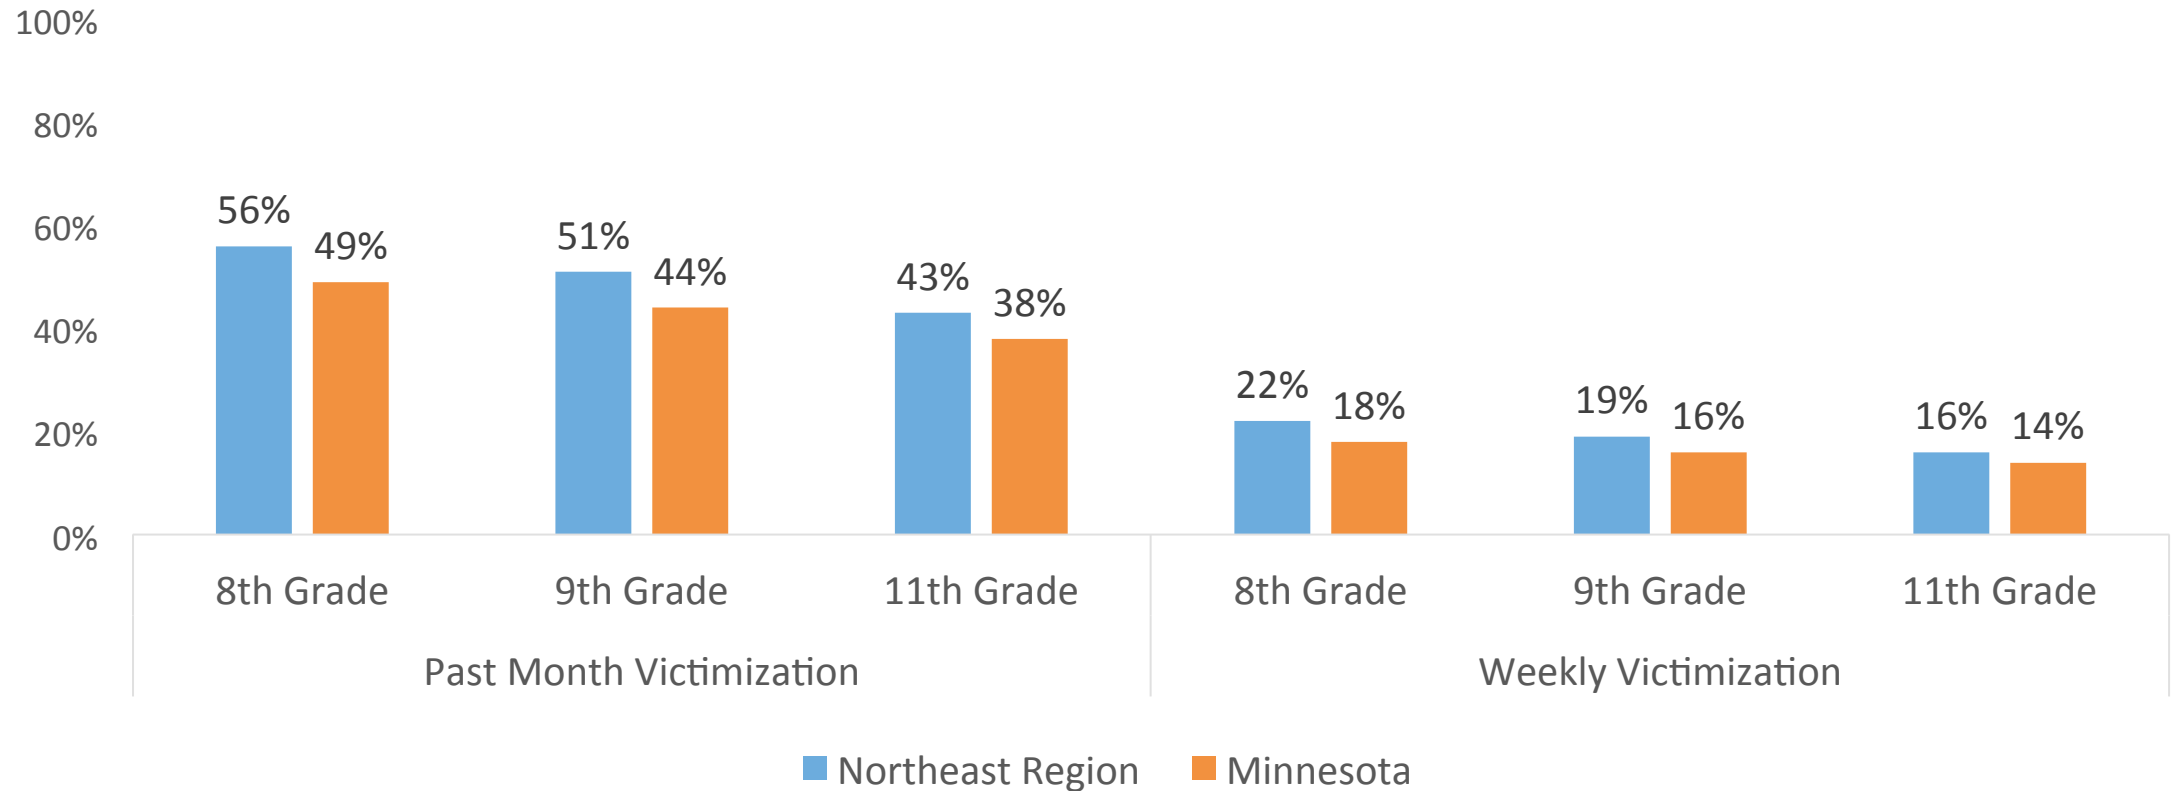

- **2.0x** less likely to report alcohol use
- **2.4x** less likely to report tobacco use
- **3.1x** less likely to report marijuana use
- **3.0x** less likely to report Rx drug misuse

Bullying

- Students spread mean rumors or lies about you once or more in past month
- Students excluded you from friends, other students, or activities in past month
- Students made sexual jokes, comments, or gestures towards you in past month
- Students pushed, shoved, slapped, hit or kicked you once or more in past month
- Students threatened to beat you up once or more in past month

Bullying

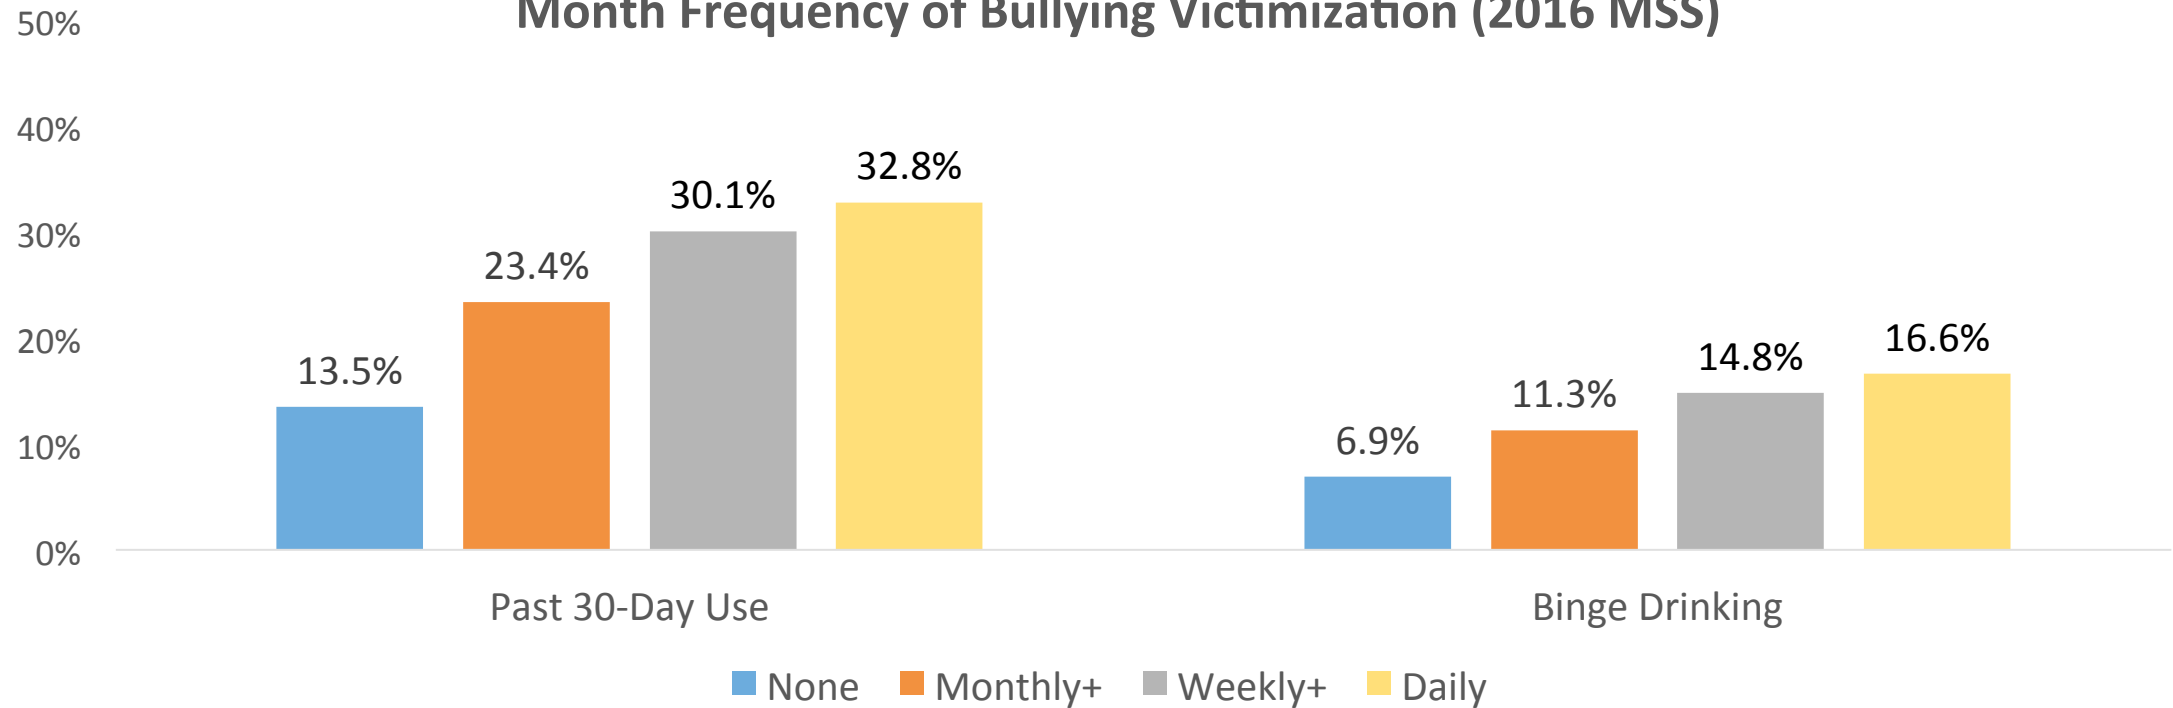

Students Reporting Bullying Victimization, by Frequency + Grade, 2016 MSS

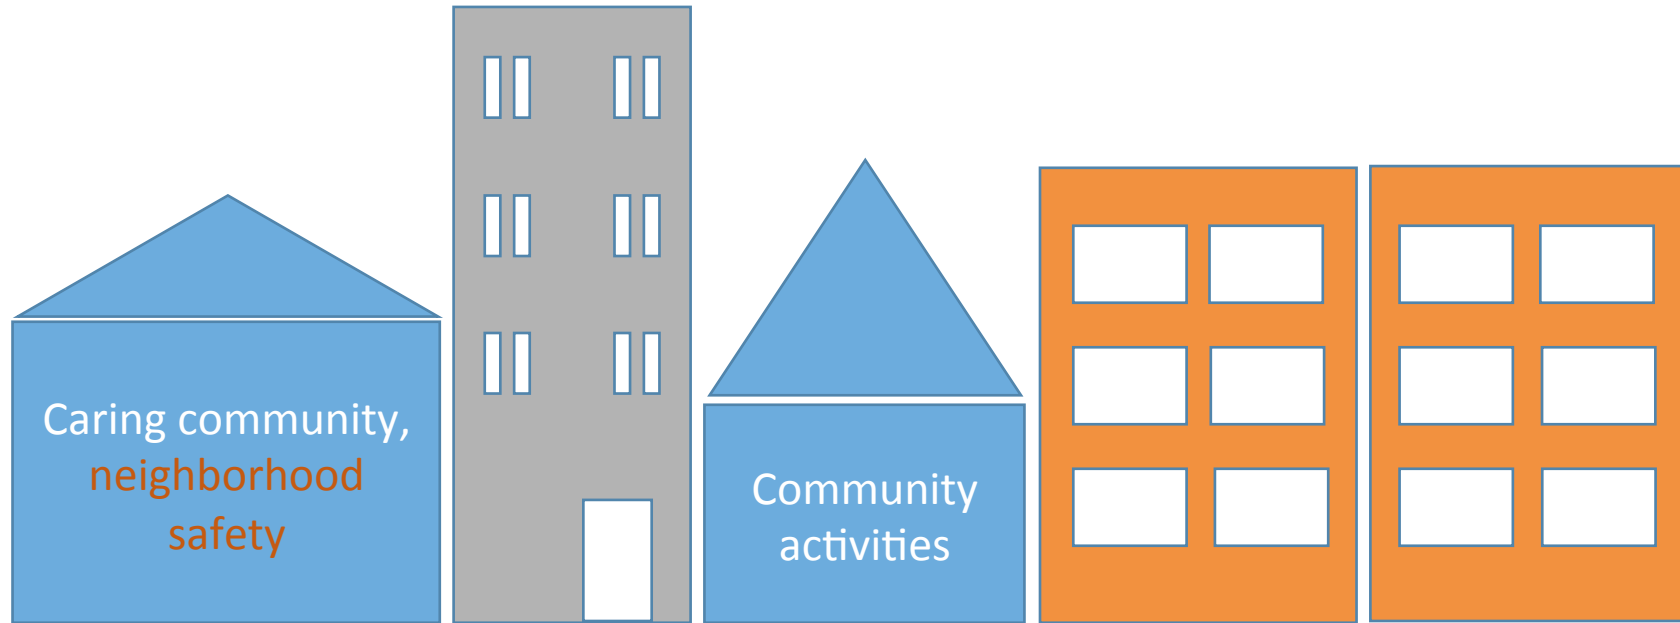

Bullying

Compared to Minnesota students who said they weren't bullied in the past month, those bullied were **3.4 times** more likely to report suicidal ideation

Minnesota Students Reporting Past-Month Drinking + Binge Drinking, by Past-Month Frequency of Bullying Victimization (2016 MSS)

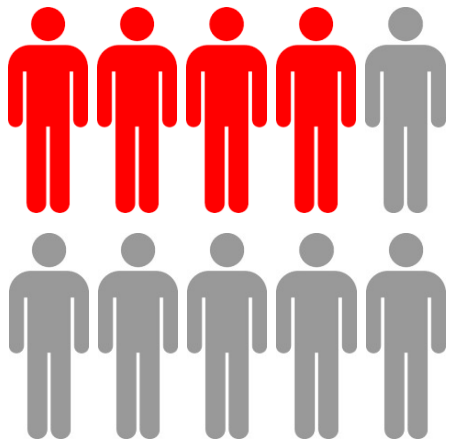

Community

Caring Community

4 out of 10 (42%) Northeast 5th, 8th, 9th, + 11th graders say they think adults in their community care about them quite a bit or very much

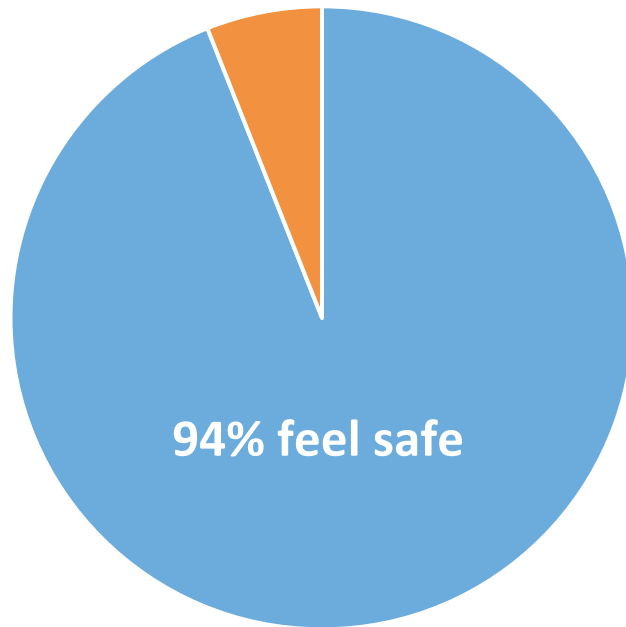

However, those who do feel their community cares were:

- **1.7x** less likely to report alcohol use
- **2.1x** less likely to report tobacco use
- **3.0x** less likely to report marijuana use
- **2.6x** less likely to report Rx drug misuse

Neighborhood Safety

Northeast 5th, 8th, 9th, + 11th
Graders Reporting They Feel Safe in
Their Neighborhood, 2016 MSS

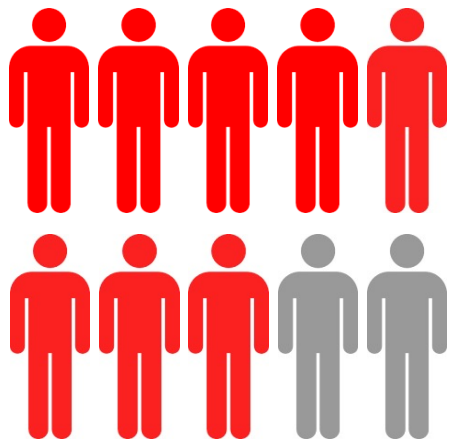

Northeast 8th, 9th, + 11th graders
who don't feel safe in their
neighborhood are:

- **1.7x** more likely to report alcohol use
- **1.9x** more likely to report tobacco use
- **2.5x** more likely to report marijuana use
- **3.0x** more likely to report Rx drug misuse

Participation in Community Activities

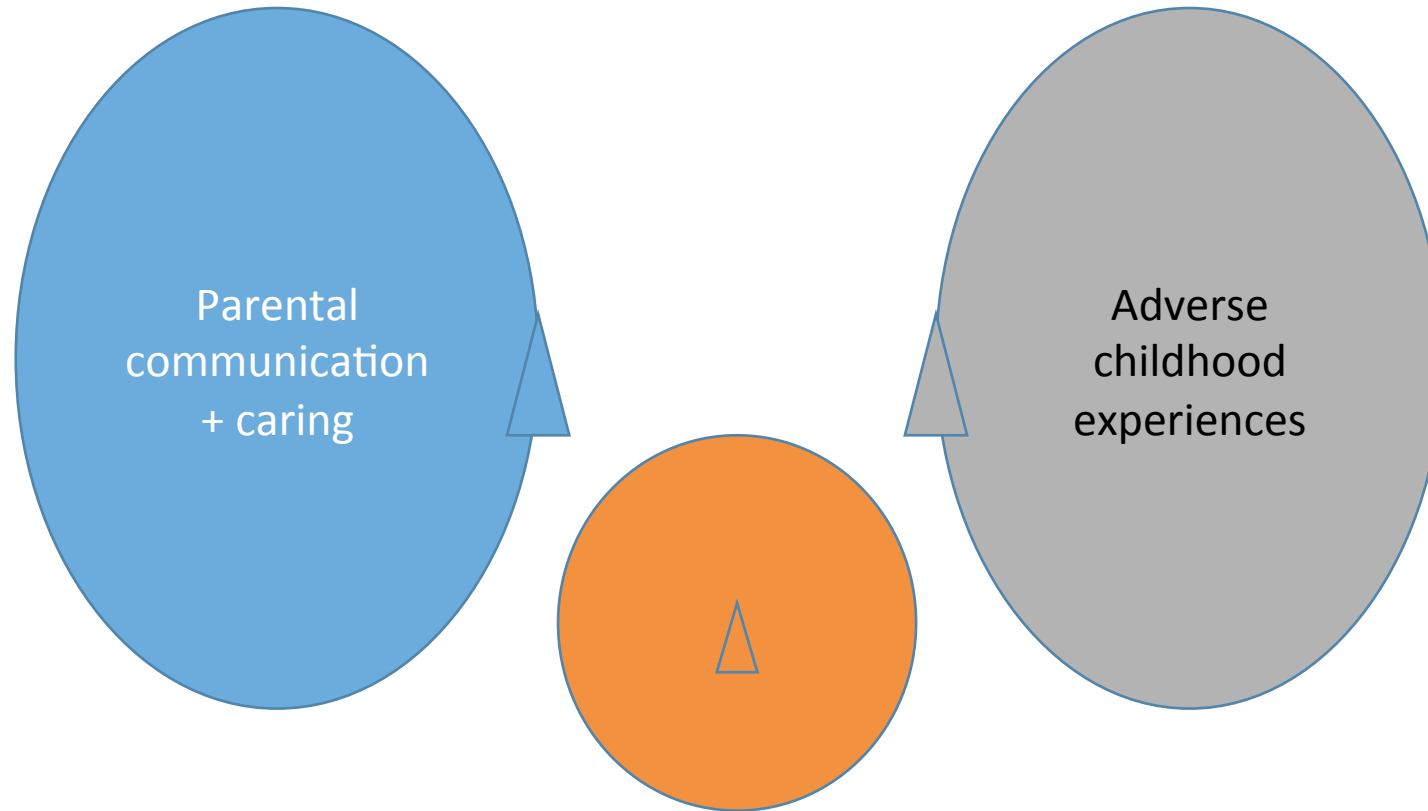

Nearly 8 of 10 Northeast 8th, 9th, + 11th graders reported participating in community sports, clubs or programs, and/or religious activities at least once per week or more

Northeast students reporting participation in community activities were:

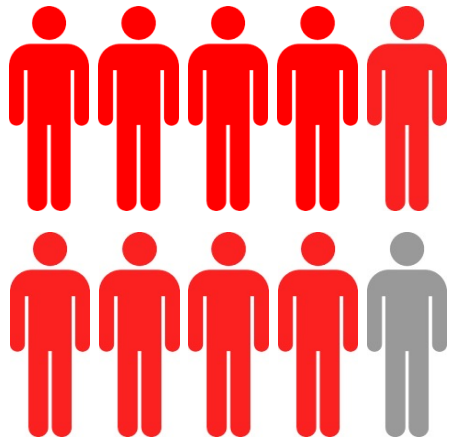

- **1.4x** less likely to report alcohol use
- **1.7x** less likely to report tobacco use
- **2.2x** less likely to report marijuana use
- **1.6x** less likely to report Rx drug misuse

Family

Parental Communication

9 of 10 Northeast 5th, 8th, 9th, + 11th graders say they can talk to their mother and/or father all or most of the time about problems they are having

However, those 8th, 9th, + 11th graders who can't were:

- **1.6x** more likely to report alcohol use
- **2.0x** more likely to report tobacco use
- **2.4x** more likely to report marijuana use
- **2.4x** more likely to report Rx drug misuse

Parental Caring

- 9 out of 10 Northeast 5th, 8th, 9th, + 11th graders also say they feel their parents care about them quite a bit or very much
- But...that's not the same 9 out of 10 who can talk with their parents about problems—85% of Northeast students reported both parental communication and caring

Northeast 8th, 9th, + 11th who feel their parents care quite a bit or very much were:

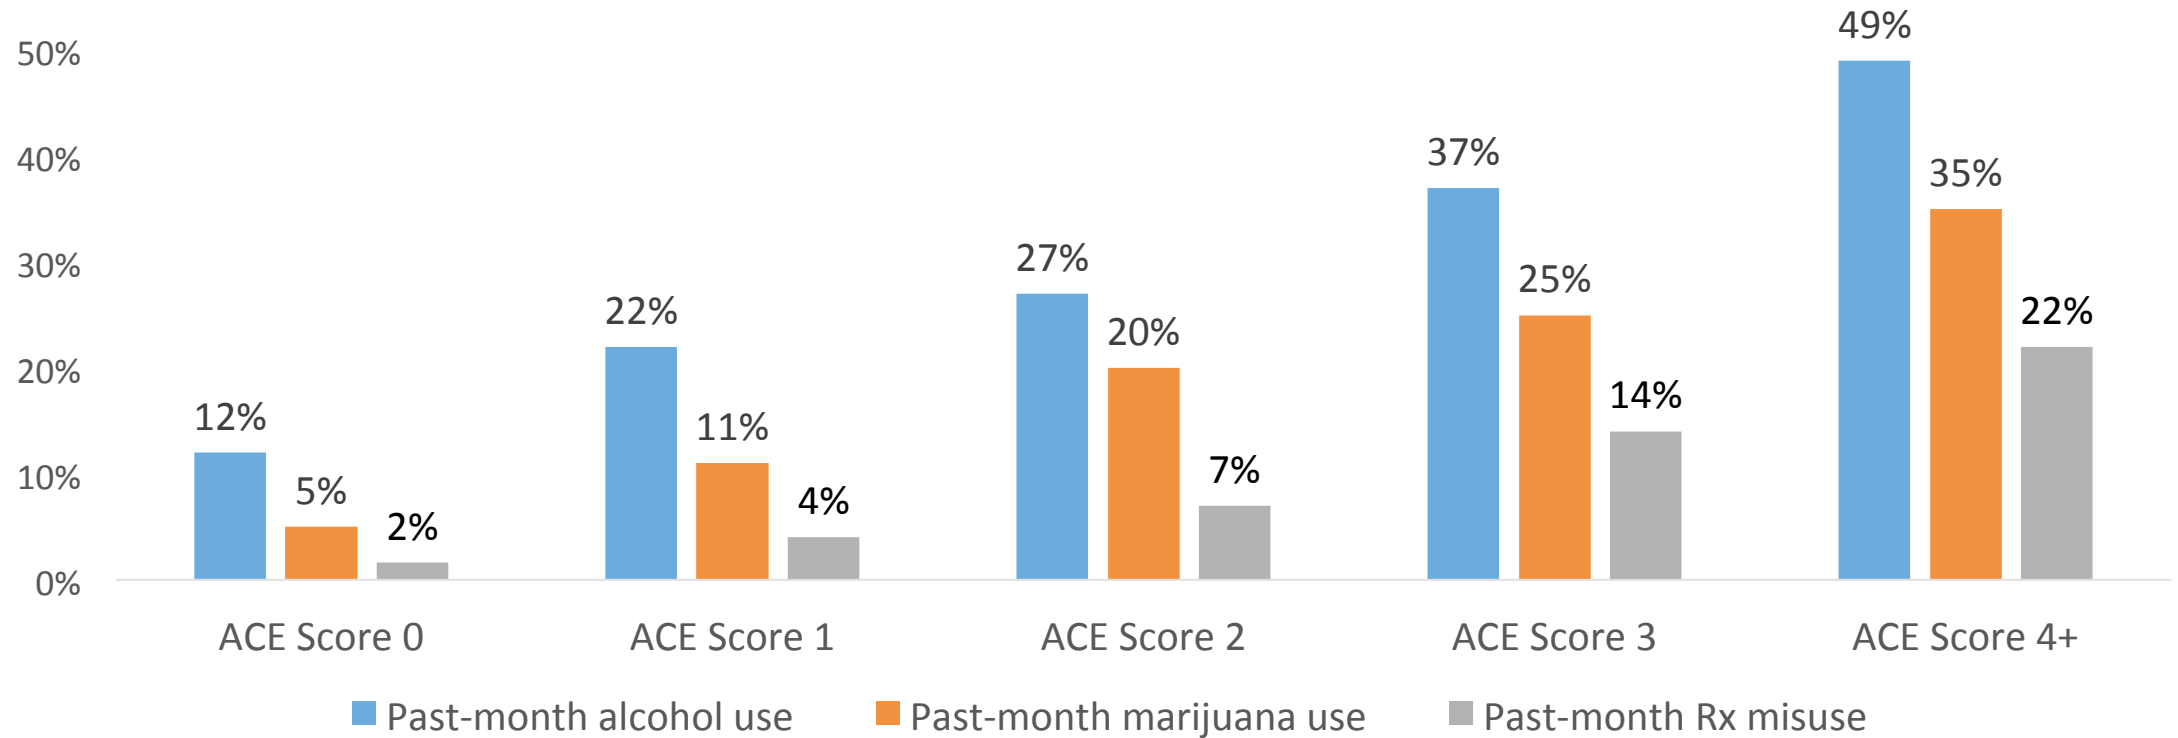

- **2.0x** less likely to report alcohol use
- **2.2x** less likely to report tobacco use
- **3.0x** less likely to report marijuana use
- **3.6x** less likely to report Rx drug misuse

Adverse Childhood Experiences (ACEs)

- Incarcerated parent/caregiver
- Living with someone who drinks too much alcohol
- Living with someone who uses illegal drugs or abuses prescription drugs
- Verbal abuse
- Physical abuse
- Household domestic abuse
- Sexual abuse

ACEs

Northeast 8th, 9th, + 11th Graders Reporting Past-Month Substance Use, by ACE Score (2016 MSS)
